Protect Your Team from Harmful UV Radiation

Sunscreen in Cost Effective and Convenient Bulk Dispensers

OUTDOOR WORKERS

SUN SAFETY FIRST
The majority of Outdoor Workers feel they aren’t getting adequate protection from UV exposure.

According to a recent Harris Poll, only 18% of Outdoor Workers say that they wear sunscreen on the job. The same survey revealed that 71% of Outdoor Workers say their employer does not provide sunscreen for them at work.

A 2014 study published by HRDirector also revealed that nearly half (44%) of outdoor workers believe their employer SHOULD BE REQUIRED to provide sunscreen on the job. In the same study, more than half of workers polled were unaware whether their employer had a policy on sun protection.

Not providing sunscreen to your employees working outdoors could put your company at risk for workman’s compensation liability.

Taking steps now to create a sun-safe workplace is one of the most important safety measures your company can adopt. Below are a few good reasons for developing a sun safe policy for your outdoor workers.

- Over $8 billion per year in skin cancer treatment costs
- Skin cancer is the most common type of cancer
- Skin cancer is one of the most PREVENTABLE types of cancer
- The potential for workman’s compensation liability
Providing sunscreen for employees who work outdoors demonstrates that you care about their safety.

Rocky Mountain Sunscreen has been a trusted supplier of bulk sunscreen to businesses who employ outdoor workers for over 25 years! Our quarts and gallons of broad-spectrum sunscreen, combined with our REFILLABLE two and six-ounce bottles, provide the most practical and economical sun safety solution available.

Implementing a sun safety program is easier than you might think. We’ve narrowed the process down to a few simple steps (below). Complete these steps and you will be well on your way to providing your employees with a safer outdoor work environment.

**Author your own sun-safety policy**
With skin cancer on the rise, having a policy in place to protect workers from unnecessary exposure to UV radiation is a must. Should a case ever come up where an employee seeks compensation for a case of skin cancer, you will have demonstrated that your company is proactive when it comes to sun safety.

**Train your employees in your sun-safety procedures**
Wearing sunscreen and other protective measures will be a new experience for employees as you implement your sun safety program. Teaching workers about the very real dangers of prolonged sun exposure will go a long way toward helping them change old habits and comply with your new policy.

**Provide employees with the sun-safe items they’ll need**
By providing easy access to sunscreen with our convenient quarts and gallons, you make it a simple process for workers to begin their work day prepared. This investment in your employees will not only help prevent future health problems for them, but also help to reduce future liability for your company.

Our economical QUARTS provide convenient, easily-dispensed sunscreen for your employees before they head outdoors. Each quart provides up to **190 applications** that will cover the arms and face. It’s ideal for smaller-sized companies that may only have a few employees who work outdoors. Our quarts also easily refill our portable-sized sunscreen containers.

**SPF 30 Lotion**  
Item# 23070

**SPF 50 Lotion**  
Item# 25070

**SPF 30 Zinc Lotion**  
Mineral-based for Sensitive Skin  
Item# 26070

**SPF 50 Spray**  
Item# 35075

**SHELF LIFE:** Our bulk sunscreens are good for 2 years, so don’t worry if you have some left over at season’s end!

Lifeguards are exposed to up to 15% more UV radiation reflected up by sand and water.
Gallon .................. BULK DISPENSERS

Our economical GALLONS provide the most convenient way to dispense sunscreen for your employees before they head outdoors. Our gallon size provides as many as **750 applications** that will completely cover the arms and face. It’s ideal for larger-sized companies with larger groups of employees who work outdoors daily. Our gallon will also easily refill our portable-sized sunscreen containers.
One of the most unique and money-saving features of our bulk sunscreen is the ability to refill smaller sunscreen containers. Our two and six-ounce containers are ideal for workers who are outdoors for extended hours and will need to reapply sunscreen during the day. Our two-ounce bottle also comes with a carabiner clip that snaps easily to a belt loop, Camelback™ or backpack for ultimate portability. Our six-ounce bottle is ideal to store in the glove box of a work truck or where tools or other items may be stored at a job site.

Every 3000 feet above sea level increases UV exposure to outdoor workers by about 10%.
# WHY RMS?

- Broad Spectrum
- Gluten Free
- Hypoallergenic
- Paba Free
- Water Resistant
- Nut Oil Free
- Oxybenzone Free
- Greaseless
